2. Any and all writings reflecting or relating to any soil, soil vapor, or water quality testing at or near the Los Angeles Tujunga Well Field project between January 1, 1970 and the present, including, without limitation, testing, whether positive or non-detect, for any of the following constituents: Volatile Organic Compounds (VOCs), heavy metals, 1,1,1-TCA, also known as methyl chloroform, and/or 1,4-dioxane.

Pursuant to FOIA, we look forward to hearing from you within twenty days after your receipt of this request. If some records are more readily available than others, please provide the readily available records without waiting for the less readily available records and send the remaining records as they become available.

We also recognize that the records requested herein may not be kept in a manner which is consistent with the request categories set forth above. Accordingly, your response to this request will be satisfied by providing us with timely access to the above-referenced records. If necessary, we can arrange for photocopying services. Further, we understand that you may charge a fee for collecting and photocopying these records and we are prepared to pay any reasonable fees authorized FOIA.

Please contact me within twenty days of your receipt of this request.

Very truly yours,
